

Presentation of Kenko Products at PIE

Kenko Co., Ltd. (President: Toru Yamanaka) will present the ink for Close-up Co Ltd.'s EPSON printers (Color Ink and Super Monochrome Ink), which were launched in December, 2007, to Photo Imaging Expo (PIE) 2008 to be held from March 19 through 21. They are our original designed products that never infringe on any patents of other manufacturers. Using the cartridge of ink in conjunction with the refill pump will halve your printing costs.

IC Chip Resetter for EPSON printer		

Super Monochrome Ink

- Beautiful monochrome prints can be made simply by replacing CMKY color ink for the EPSON printer with this gray ink with different concentration levels.
- Monochrome conversion software can be downloaded free of charge from our support page.
- The ink is in our original cartridge. Using the refill pump, which is separately sold, ink can be refilled without dirtying your hand.

Color Ink

- Compatible with the EPSON printer.
- lineup of both dye-based and pigmented ink.
- The ink has an excellent color tone and can be stored for a long time.
- Using the refill pump reduces printing costs by half. Not only economical but also ecological!

Resetter

- The cartridge can be reused over and over again by resetting its IC chip.

Lineup of Ink Used for : IC 21, IC 22, IC 23, IC 31, IC 32, IC 33, IC 37 and IC 42
