

## Presentation of Kenko Products at PIE

Kenko Co., Ltd. (President: Toru Yamanaka) will present LUCKY photo products, which we started marketing in January, 2008, at Photo Imaging Expo (PIE) 2008 to be held from March 19 through 21.

The LUCKY photo enlarger has stood the test of time ever since it was first released in 1935. We are completely positive that the 4 models and 5 lineups of new products and their accessories that have evolved from the prototype will attract lots of attention.
