Rain Covers DG-L & DG-M for Single-Lens Reflex Digital Camera

DG-M

DG-L

- Support photographing and video recording in rainy weather.
- Equipped with a liquid crystal display window (transparent window on the rear liquid crystal monitor).
- Covering the 3" liquid crystal monitor, they are suitable even for light view photos by the most up-to-date style single-lens reflex digital cameras.
- The cold resistant material never gets stiff even at extremely low temperatures.
- The M size is used for standard zoom lenses, the L size for telescopic zoom lenses.

PRO1D Lens Caps

- Newest design plastic cap with a finger hold in the middle.
- Easily attached and unattached with the lens hood on.
- Convenient sizes ranging from 52 to 77 mm.
- The logo is 'PRO1D'.
These high-quality caps match all types of lenses.

Clamp Pod PRO100

Folding size: 140x50x250 mm
Total height: 240 mm
Weight: 800 g

- Multifunctional clamp tripod used not just on the ground but mountable on a board with the thickness of up to 10 cm.
- Also used as a car window mount.
- Easily folded into compact size for carrying.
- Supplied with an obstruction-free camera platform.
- There are 3 colors: black, silver and green.
